Sponsored by:

Course Description:
We will review periodontal disease progression, discuss the limitations and the effectiveness of conventional treatment vs. newer treatment modalities such as locally delivered antibiotics and laser therapy, and learn about what is considered effective today in periodontal therapy. This course is structured to be very interactive and is the perfect forum to ask all those perio questions you've been wondering about.

Speaker:
Dr. Miles Madison entered college at a young age of sixteen, and graduated from University of Southern California Magna Cum Laude with Bachelors degree in Biological Sciences in 1985. He then attended UCLA School of Dentistry and went on to specialize in Periodontology at University of California at San Francisco. He is a member of American Academy of Periodontology, the California Society of Periodontists, International Team of Implantologists, the California Dental Association, the Los Angeles Dental Society, and the Beverly Hills Academy of Dentistry. He is the innovator of numerous advanced techniques, and lectures nationally to other dentists and periodontists.
