

Los Angeles Dental Hygienists' Society Seminar

**Evidence Based Solutions to Nonsurgical Periodontal Therapy:
Power Scaling and Pain Management**

Speaker: Karen A. Hays, RDH, BS

Saturday October 23, 2010

7:30am registration

8:00 am to 12:00pm exhibits and course

4 CEUs Continental breakfast

Marina del Rey Hotel 13534 Bali Way Marina del Rey, CA 90292

\$5.00 parking

Sponsored by:

Course Description:

This course is based on the current scientific literature and evidenced based strategies to give the clinician practical guidelines regarding the use of ultrasonic instrumentation and non-injectable local anesthesia for nonsurgical periodontal therapy. Ultrasonic instrumentation techniques including Implant Maintenance will be covered extensively following the dental hygiene process of care and utilizing hands-on activities. Indications for a non-injectable local anesthetic periodontal gel will be discussed and the application technique reviewed.

Session Objectives

Upon completion of this course, participants will be able to:

- Differentiate the advantages and limitations of the various technologies which drive power scaling units
- Discuss current research findings which demonstrate the clinical advantages/benefits of ultrasonic instrumentation over manual instrumentation
- Identify and assess pretreatment considerations for the use of ultrasonic instrumentation
- Identify the benefits and limitations of non-injectable local anesthetic periodontal gel
- Identify various modifying factors which influence and/or change instrumentation
- List criteria for the appropriate selection of ultrasonic inserts, both standard and modified.
- Demonstrate the correct technique for utilization of the ultrasonic scaler .

Speaker

Karen Hays, RDH, BS is the Western Clinical Educator for DENTSPLY Professional, presenting lectures on ultrasonic instrumentation, anesthesia, and implant maintenance. Karen has over 20 years of experience in dentistry, including teaching. She has published articles and held local positions in the California Dental Hygienists' Association. Her focus is to provide dental professionals with current scientific research and information to assist them in implementing effective and efficient evidence based treatment protocols in their clinical practice.

Fee:	Postmarked Before Oct 12	Postmarked After Oct 12
ADHA /AADA/ ADA members	\$85	\$105
All non-members	\$105	\$115

Non-ADHA members joining today will be charged member fee of \$85
