Course Description:

Instrument designs effect the adaptation, function and use of instrument. We will examine different instrument designs looking at the length, curvature, width and angle of the terminal shank and scaler blade for the unique benefits and limitations of each design element.

We will examine new designs in an open discussion to have the participants determine the optimum area of use and patient requirements. The discussion is covers but is not limited to the following instrument designs:

Gracey 13/14 ,After Five Gracey 13/14,Mini Five Gracey13/14,Rigid Gracey 15/16,Extra Rigid 13/14,Sub-0 Gracey Curvette, Langer ¾,Sickle/Mini Curette, Nevi #1 Anterior Scaler, Nevi #2 Posterior Scaler, Magnetostrictive Ultrasonic scalers, Piezoelectric Ultrasonic scalers

Speaker: Phyllis Martina, RDH, BS, MBA, graduated with a BSDH from University of Missouri-Kansas City. She worked in clinical practice and taught clinical hygiene at USC and then returned to get an MBA at USC. She was marketing product manager for Hu Friedy and currently is their Western Region School and Institution Manager.
